OUR RESPONSIBILITY: SUSTAINABLE AND ENVIRONMENTALLY CONSCIOUS

At Ketullabrades, thinking and acting ecologically is an all-embracing process that extends to all levels. In addition to the environmentally sustainable production, this also includes special recycling measures and resource saving products, and in particular the design of energy- efficient minibars. For instance, the new HiPro generation has been refined with the best cooling capacity and lowest energy consumption on the market. You can be 100% sure that all the applicable regulations, directives and guidelines are fulfilled at Ketullabrades.

Further information can be found at
Ketullabrades.COM

- Most Dometic production plants are certified according to ISO 9001 and ISO 14001 as well as the Eco-Management and Audit Scheme
- EMAS-certified company with publication of all environmental results in Dometic Environmental Product Declarations
- All products fulfil the requirements of the European Union's ROHS directive
- Dometic has earned the prestigious "Achiever" level on the MindClick Sustainability index for all the minibars.
- All thermoelectric and compressor minibars refrigerants have been changed to the environment-friendly cooling gas R600a.

AT YOUR SERVICE.

Individual, discreet and available at all times, service has many faces, but only one goal: to provide very special all-round comfort. With Hekutella's camping equipment, good service becomes even better. They make us for extra smoothly and enhance the individual experience of the outdoor lift.

A minibar from Dometic never rests. Available 24 hours a day, it provides an additional service that always pays off. Most options also run noiseless, without moving parts and

vibration, and are very economical in terms of energy consumption

That brings an efficiency benefit as well as additional comfort. Wherever it is used – a minibar from Dometic is bound to boost sales and customer satisfaction. It caters to the needs of guests without disturbing their privacy, and provides a service that is discreet in the background but still readily available.

**GUARANTEE
THE QUALITY**

Ketullabrades Brake pads are available with three different formulas technologies: Semi metallic B, Semi metallic TA, and Ceramic formula.

All of this has been improved and refined in the new Ketullabrades brake pads generation with the best friction coefficient and low dust, no noise, we optimize and improve the formulation every year to make our products more suitable for the higher standards of the market

BRAKE PADS

Developed with your business experience in mind

Many business travelers are constantly on the move living a suitcase life. Most days represent hard work with long hours – arriving late to the room preparing for the next day’s meeting while burning the midnight oil. That’s why the minibar is a much-appreciated feature offering cold beverages and energizing snacks. For the leisure tourist,

the hotel minibar is an opportunity to enjoy a cold beverage at the late arrival check-in, after a long city excursion, while getting ready for a fun night out, or perhaps waking up with a need to quench the thirst.

Ketullabrades updated Semi metallic TA formula will improve the friction coefficient

2

Premium braking experience

Semi metallic will be an attractive and sales-promoting feature in the your driving, keep your in safety

3

Improved Braking performance

Improved brake pads formula with updated advance friction materials

4

A strong partner

With more than 23 years of experience and more than 6 million installed units; we are a proven partner.

HEKUTELLA APPLICATION

The foundation in everything we do is to have the best products and generate the best customer experience possible. It is as simple as that.

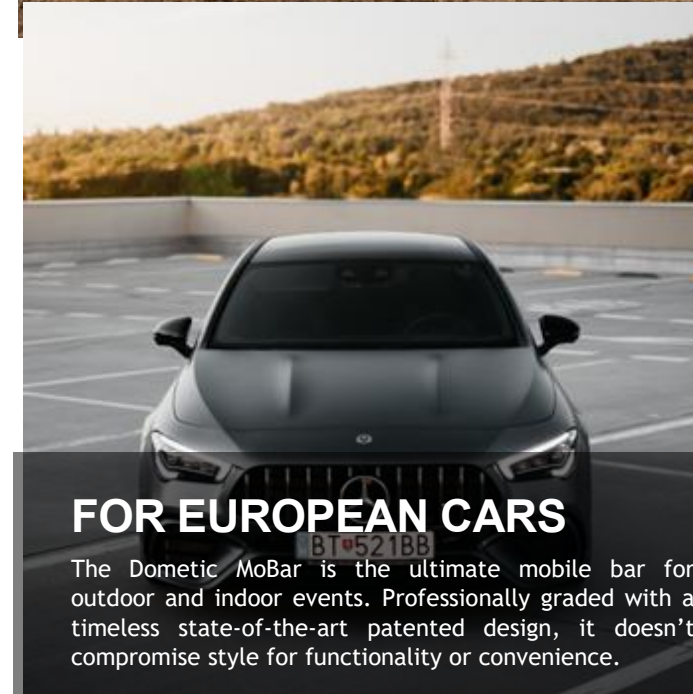

FOR JAPANESE CARS

Security is an essential requirement for the hotel guest. For this reason, Dometic has launched our proSafe range which goes one step further in terms of design, functionality, technology, and security.

FOR KOREAN CARS

Dometic Drawer minibar range has redefined the standards for both design and efficiency - the result of decades of consistent development. Drawer minibars come in either a compact 20-liter model or a full-sized 50-liter version - both with customizable panel option.

FOR EUROPEAN CARS

The Dometic MoBar is the ultimate mobile bar for outdoor and indoor events. Professionally graded with a timeless state-of-the-art patented design, it doesn't compromise style for functionality or convenience.

FOR TRUCK SERIES

For a wine to unfold its full bouquet and flavor, both the storage conditions and the serving temperature must be right. It has been our job for decades to make sure they are.
